Note that this map does not attempt to include all of the rivers, lakes, etc. of South America. Just major features selected at the discretion of Steve Sobek have been included. These features have been sketched in at approximate locations and like all of our other maps does not pretend to reflect satellite precision nor universal inclusion of all rivers, lakes, deserts, etc. Priority is given to including only the major features and keeping the map easy to read.

Below is a hyperlink to the home web page that will link to the interactive flashcard-like drills.
